

SIMPLYFLY SOLUTION & SERVICES LTD

WWW.SIMPLYFLYBD.COM

WHO WE ARE

Simplyfly Solution & Services Ltd. (SSSL) is an Defense, Aviation & Maritime product sourcing Company to provide complete aviation & maritime supply chain solution through reciprocal agreements with selective operators for both army and civil aviation. Alongside, we are always in good terms with our customers and constantly maintaining our relations with them by providing the best services in supplying aviation & maritime products.

Simplyfly has been a leading provider of on-demand air charter and private jet solutions to government agencies and discerning individuals around the globe. Besides, we also deliver the supply chain management demands for all types of products for Bangladesh defense including Army, Navy and Air forces.

Our client base includes Bangladesh Army, Bangladesh Navy, Bangladesh Air forces, Civil Aviation, International Organizations, Global Corporates and other government agencies. Therefore, we are subject to the most rigorous requirements in safety and operational standards. We are proudly involved in rescue, emergency relief and humanitarian efforts worldwide.

Simplyfly Solution & Service Ltd offers customers and vendor partner's innovative solutions to meet the ever-changing needs of the aviation marketplace as well as maritime world. SSSL is the industry leader known for adding value to supply chain solutions, with services ranging from simple airframe to engine parts which support the complete supply chain management programs. Presently, we are focused on the Bangladesh Defense and Commercial Airlines. However, we believe our integrity will expand our ability of supplying more critical areas.

- Life Boat /LifeRaft

AVIATION SUPPORT & CONSULTANCY WORKS

Aviation Consultancy of Simplyfly Solution & Services Ltd. helps airlines to tackle their most challenging commercial and operational issues. We advise a broad range of aircraft operators; from full-service legacy airlines to ultra-low-cost carriers, charter operators and niche service providers. Performance benchmarking and process improvement across commercial, operational disciplines, and methodologies. Support for all aspects of fleet planning and fleet purchase or lease decisions, including airframe and engine negotiation, specifications development, supplier management, Strategy and business plan development to support airline start-ups or spin-offs of profit center divisions such as maintenance & engineering, cargo, ground handling etc.

Simplyfly Solution & Services Ltd. consults business regarding general aviation manufacturers, charter and other aircraft operators, fixed base operations (FBOs), maintenance, repair and overhaul (MRO), airports, government regulators and policy makers in both mature and emerging markets. Our MRO advisory team has experience in advising of best maintenance, repair and overhaul (MRO) providers, including airlines, OEMs and independent suppliers. Clients rely on SSSL for data-driven analytics leveraging highly-curated, proprietary databases, models and industry forecasts. Our Services also include;

- MRO and business plan development
- Strategic sourcing and supply chain management
- Line training and continuous process improvement
